

ELECTRIC

Montfort electric stove in traditional matt black finish

Traditional Cast Iron Stoves

The finest electric stoves from

ACR 
HEAT PRODUCTS LTD

A genuine cast iron stove looks stunning in any home, but many people find they would prefer to have the beauty of a real stove with the convenience of electricity. ACR have married the two together perfectly with the Montfort and Savoy, two of the most popular appliances our range.

The Savoy is ideal for rooms with larger fireplace openings, and the Montfort perfect for smaller fireplaces. Both stoves are available in a traditional matt black stove paint finish which complements a wide range of colour schemes. There is also a brass trimmed door option on the Savoy stove.

The stoves have a 'real flame' electric log fire insert complete with glowing embers, this insert has one of the most realistic flame patterns available. Both stoves have the benefit of being able to select between a 1 Kw and 2 Kw heat output and the Savoy has full thermostatic control.

A coal effect kit is also available for the Savoy only, this can be purchased as a separate item at the time of order or any time afterwards, allowing the look of the stove to be changed at any time.

Both stoves can be sited anywhere in the home where a standard domestic electric supply is available (except for bathrooms for health and safety reasons). For those warm summer evenings the flame effect can be turned on independently without any heat, to create a cosy atmosphere in any room.

Savoy electric stove in traditional matt black finish

MONTFORT AND SAVOY - FINISH/COLOUR

Matt black stove paint

SAVOY OPTIONS

The Savoy is supplied with a log effect fire as standard. An optional coal effect is also available separately, as shown, and is easily fitted by the user - giving two distinct fire styles that can be exchanged as often as you wish. The matt black Savoy is also available with a brass trim door finish as an optional extra.

WARRANTY INFORMATION

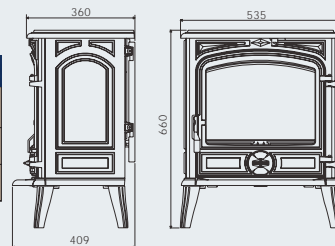

Our 5 year warranty covers all stove body castings, it does not include consumable items such as glass and door seals. This 5 year warranty is only applicable when the stove is purchased from one of our recommended retailers. If a stove from any of our brands is purchased from a non-recommended retailer then only a 12 month warranty will be applicable as outlined below. All stoves are covered by a 1 year castings warranty when purchased through a non-recommended retailer. The warranty covers the stove body castings only and does not include consumable items such as grates, firebricks, vermiculite panels, baffles, log guards, door rope and glass. Any warranty claims should be addressed to your original supplier and accompanied with the date of purchase and serial number of the appliance.
